SUMMARY

Full-Stack Developer with 4 years of experience building and operating production web applications with React/TypeScript and Node.js on AWS. Comfortable working in remote, distributed teams (Brazil/US, multiple time zones) with frequent deployments in agile sprints, clean code, automated testing (unit and E2E), and microservice/REST API architecture. Hands-on experience integrating Large Language Models (LLMs) into products. Professional written and verbal English.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, PHP, Go

Frontend: React, Next.js, Vue, Angular, Tailwind CSS, SCSS/SASS

Backend: Node.js (NestJS), Deno, Laravel, Flask; REST APIs (Swagger/OpenAPI) & microservices

AI / LLM: integrating language models (OpenAI) into products; AI document import & classification; virtual assistants

Cloud & DevOps: AWS (S3, SQS, ECR); Docker (multi-stage builds, Compose); CI/CD pipelines; RabbitMQ

Databases: PostgreSQL, SQL Server, MySQL, MongoDB; Prisma ORM (read replicas)

Practices: Clean Code, unit & E2E testing (Jest), code review, continuous delivery; JWT/2FA auth

Methods & Tools: Agile, Scrum, Kanban · Git, GitLab, Bitbucket, Azure DevOps

Languages (spoken): Portuguese (native) · English (advanced / professional)

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Mid-level) — Taxly

May 2025 – Present

Stack: React/TypeScript, Node.js (NestJS), Python, Laravel, PostgreSQL/SQL Server, AWS, Docker

- Designed and delivered features end to end within an agile team, shipping frequently to production via Docker and CI/CD pipelines with a focus on stability.
- Built and maintained Node.js (NestJS) microservices exposing documented REST APIs (Swagger/OpenAPI), backed by PostgreSQL and SQL Server through Prisma ORM with read replicas.
- Optimized APIs and screens, reducing perceived page-load time by ~80%.
- Built an AI-powered document import and classification pipeline using LLMs (OpenAI), adding intelligence to the product.
- Refactored the dashboard for usability, performance, and UX in close partnership with product and design.

Software Development Specialist — Saguí.AI

May 2024 – Mar 2025

Stack: React, Vue, Deno, Supabase, Laravel, AWS

- Built AI-based mobile-app and website generators and integrated an LLM-powered virtual assistant into the platform.
- Implemented unit and E2E tests, increasing reliability and reducing regressions on each release.
- Developed reusable components with a focus on performance and accessibility.

Full-Stack Developer (Mid-level) — OnlyControl

Apr 2023 – May 2024

- Developed an invoice/proposal management system and engagement tools, using REST APIs and third-party integrations.
- Integrated Stripe payments (Plans / Checkout) and reworked UI/UX to improve conversion.
- Collaborated directly with a US partner (UncommonGood), working in English across time zones.

EDUCATION

B.Sc. in Computer Science — University of Caxias do Sul (UCS) · Mar 2022 – in progress

Technical Diploma in Internet Computing — IFRS, Bento Gonçalves Campus · Feb 2019 – Feb 2022

ACHIEVEMENTS & COMPETITIONS

Code@Night 2026/1 — SAP Edition · SAP office, São Leopoldo, RS · Jun 2026

Code@Night 2025/2 — ADP Edition · Unisinos Campus, Porto Alegre, RS · Dec 2025
